Washington OneNet Update

Shelley Westall

FirstNet State Plan Portal

Courtesy of FirstNet

- **FirstNet will deliver its plan for a state's radio access network (RAN) and service offering using an internet web portal**
- **The portal will have two sides**
 - **A public side for public safety agencies containing service cost, coverage, and device information**
 - **A private side for sensitive information accessible by the Governor's Office and SIEC**

State Plan Review Approach

Based on the Guidance Package and 5/1 Webinar, reviewers won't be grading the plan as much as stating things that were missed or incomplete

Therefore, given the limited time for review, an approach is:

- **Identify key focus areas important to Washington for team's review**
- **Create work groups for each focus area and assign reviewers with instructions to:**
 - **Identify what items, if any, are showstoppers for Washington if the plan were to be implemented unchanged**
 - **Enter any other comments online using the process provided by FirstNet**
